

TTY-USB programming cable for Siemens SIMATIC S5 / PC

(USB-replacement for SIEMENS 6ES5 734-1BD20)

Selection options :

- cable length: **2.5 m** or **5.0 m** (other lengths on request)
- 15-pin plug to PLC: with **slide lock** or as a **screw plug shell** without a lock

The programming cable is compatible with:

- all CPU versions of the following **S5 PLC** series: **90U, 95U, 100U (CPU100-103), 115U, 135U, 155U**
- all versions of Siemens **software STEP5** (a STEP5 driver is included for the USB cable)
- all Windows-based programmes such as **WinSPS, PG2000, Accon-PG** or **S5 for Windows**
- Siemens software **Protool** and **WinCC flexible**
- operating systems **Win98/ME, Win2000, WinXP, Vista, Win7/8/8.1/10 - 32/64 bit**
(STEP 5 can be run in Win 7/8/8.1/10 in a "virtual machine" (**VirtualBox** or **VMware**) with Win XP)

Quality features:

- high reliability guaranteed by hermetically sealed electronics
- monitoring of data transmission direction with LED (helpful in case of faulty communication)
- all of the interface converters are tested continuous at 25 ° C and 75 ° C

Warranty /Support:

- we provide a 2 year warranty for the converter (free exchange)
- we provide assists for installing the interface if needed
